Markets served:

Unisource Canada, Inc. is committed to maintaining its position as the industry leader in the supply of facilities maintenance, packaging, printing and imaging products, and logistical solutions.

We deliver the Best Value every time to all stakeholders in our business: our customers, our team members, our suppliers and our investors. We deliver by keeping our commitments to our customers, suppliers, investors, and to one another.

We keep our commitments by using standard processes throughout our company that deliver world class result to every stakeholder. We continuously strive to improve our process to raise our standards, improve our reliability, increase our speed and lower our costs. We are disciplined in our work, accountable for our results and proud of what we accomplish together.

Best Value is the balance of price, cost and quality which is optimal from the perspective of the stakeholders and which causes us to be their first choice.

Every time is always: one hundred percent to our standards and commitments.

Through the use of a continuous improvement management system, Unisource strives for:

- Excellence in customer satisfaction;
- A reduction in the customer's total procurement cost through effective buying, asset utilization, and the maintenance of a financially efficient operation;
- Innovative logistical solutions utilizing technology;
- Key vendor partners who are leading edge with respect to technological investments, and are low cost manufacturers who compete globally;
- Continued enhancement of employee skills;
- Excellence in employee safety and satisfaction;
- The preservation of the Chain of Custody.

Let us show you how we ***deliver the best value every time!***
